

SONO RIGHT CORNER

WITH AUTOMATIC BEV® BURNER

Net Zero fireplace with BEV Technology®

AUTOMATIC BEV® BURNER

The BEV Technology® guarantees burning that is free of smoke, odor, or ash. This technology creates a flame by burning ethanol vapors, ensuring that the fire has no direct contact with the liquid fuel.

PERFECT VIEWING ANGLE

Select from three distinct glazing options: left corner, right corner, or three-sided, offering flexibility to showcase the flames from any angle and enhance your space's design.

TRUE ZERO CLEARANCE

This feature allows the fireplace to be installed in a housing made of combustible materials, offering flexibility in design. You can safely place artwork or a TV above the fireplace.

NEW BURNER DESIGN

The unique log setup, supported by special brackets, creates a deeper, more dynamic flame display. This innovative design mimics the natural look of a bonfire, adding depth and dimension to your space.

GLASS ENCLOSED

Experience the perfect blend of elegance and efficiency with our modern closed fireplace featuring tempered glass, offering unparalleled heat retention and safety for your home.

EXTERNAL CONTROL PANEL

Install the external panel below the fireplace or in a nearby wall – wherever it suits your design. It features an LCD screen and a built-in refueling port for easy access.
