

Introduction

Dear user,

In buying this DOVRE heating appliance, you have chosen a high quality product. This product is part of a new generation of energy saving and environmentally friendly heating appliances. These appliances make optimal use of convection heat as well as thermal radiation (radiant heat).

- ▶ Your DOVRE appliance has been manufactured with state-of-the-art production equipment. In the unlikely event of a malfunction, you can always rely on DOVRE for support and service.
- ▶ The appliance is not to be modified; always use original parts.
- ▶ The appliance is intended for use in a living room. It must be connected hermetically to a well-functioning chimney.
- ▶ We advise you to let an authorized and competent installation company install the appliance.
- ▶ DOVRE cannot be held liable for any problems or damage resulting from incorrect installation.
- ▶ Observe the following safety rules when installing and using the appliance.

In this manual, you can read how the DOVRE heating appliance can be installed, used and maintained safely. Should you require additional information or technical data, or should you experience an installation problem, please contact your supplier first.
